

Lightbody S Pendant

Jörg Hugo, 2021

Jörg Hugo's vision of a body of hand-blown glass wrapping and morphing around a lighting element comes to life in each Lightbody luminaire. To create this stunning masterpiece, a Maestro free blows a piece of glass without a mold (*soffio libero*) which results in glass diffusers that are each unique, one of a kind and have a brilliance/transparency like crystal. Given that no two are alike, each Lightbody is editioned with a unique serial number etched in the glass. Lightbody is available as a pendant or table lamp.
