

## Celine P 35 Wall Lamp

Leucos Design Lab, 2002

The Celine Wall lamp floats a simple, sliced drum shaped glass diffuser on the wall that provides diffused up, down and radiant light. The Celine was designed by Leucos Design Lab with an Integrated LED module to be a minimal and warm solution versatile enough for many applications. Its hand-blown diffuser is made of multiple layers of glass to create a rich, white look. This traditional Murano hand-blown glass technique is called *incami-ciato* (Italian for "jacketed" or "layered"), which requires multiple layers of glass during the blowing process to create perfect diffusion. Celine is available in 2 sizes (25 and 35 cm).

### Diffuser/Structure Finish:

Satin White/Brushed Nickel

### SKU(s):

0003962 Celine P 35 Wall Lamp

### Family Includes:

Celine P 25 Wall Lamp
