

Fairy S S Pendant

Toso, Massari & Associates With G. Toso, 2009

Fairy (2009) is a clever design derived from 3 simple borosilicate glass shape options (cylinder, sphere, or geode), that fold onto themselves to create a continuous glass outer surface with a beautiful, ribbed interior. The result is a gorgeous handmade volume with a dazzling illuminated core. Fairy has been updated to include an Integrated LED option as well several custom colors (color options available on request). Fairy is customizable as a single or multipoint pendant: unleash your imagination to combine fairy elements to create brilliant floating clusters of 1,3,5,10,15,20, 25 or more that are sure to enchant.
