

Felix S 55 Pendant

Leucos Design Lab, 1996

The Felix Pendant was created by Leucos Design Lab by mixing a sphere with an ellipse. The result is a beautiful hand-blown glass shape with soft curves and luminous volume. This hand-blown diffuser is made of multiple layers of glass to create a rich look by using a traditional Murano hand-blown glass technique called *incamiciato* (Italian for “jacketed” or “layered”), which requires multiple layers of glass during the blowing process to create a beautiful stain white with perfect diffusion. The Felix Pendant is available in 2 sizes (47 and 55 cm) and the Felix family includes a pendant and ceiling/wall lamp.
