

**Cubi 28 Wall/Ceiling**  
Leucos Design Lab, 2000

The Cubi Ceiling/Wall Lamp, designed in 2000, is an icon of Leucos. Its cubic form is surprising for handmade glass, which makes it a delightful lamp. Its handblown satin white diffuser is made of multiple layers of glass to create a rich, white look. This traditional Murano handblown glass technique is called *incamiciato* (Italian for “jacketed” or “layered”), which requires multiple layers of glass during the blowing process to create perfect diffusion.
