

Felix 35 Wall/Ceiling

Leucos Design Lab, 1996

The Felix Ceiling/Wall Lamp was created by Leucos Design Lab by mixing a sphere with an ellipse. The result is a beautiful handblown glass shape with soft curves and luminous volume. This handblown diffuser is made of multiple layers of glass to create a rich look by using a traditional Murano handblown glass technique called *incamiciato* (Italian for "jacketed" or "layered"), which requires multiple layers of glass during the blowing process to create a beautiful stain white with perfect diffusion.
