

## Vittoria Table Lamp

Toso, Massari & Associates, 1992

The Vittoria Table Lamp is an icon of Leucos design and brings a piece of history into your home or office. Vittoria was designed in 1992 by Toso, Massari & Associates and has become an inspiration for creating multiple light source options from the same lamp (downward, upward and diffused). Vittoria's design is minimal to be sure, but it is functional to excess.
